

Business and Process Integration for: **Lotus Notes & Lotus Domino**

Increase Business Productivity

For your business to perform optimally, you need to get the maximum value from the IT investments you've already made. With the growing range of business applications in the enterprise, it becomes critical that these investments are fully synchronized and integrated with each other.

Data integration provides your organization with a real-time, concise picture of your business activity. It eliminates repetitive manual data entry and it gives you that extra degree of agility when it comes to identifying and responding to new business opportunities.

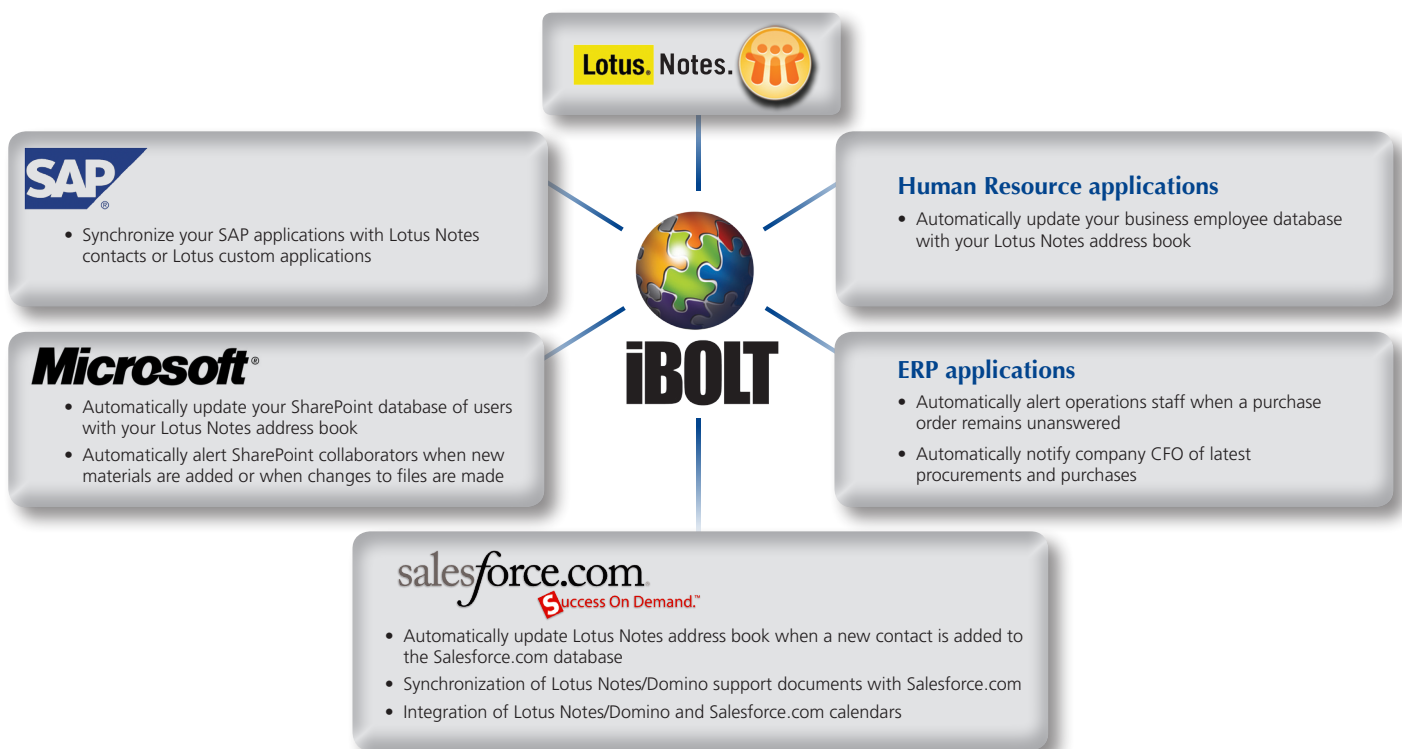

Integrate Lotus Notes into Every Business Event

For Lotus Notes and Lotus Domino users, fast, cost-effective data integration is now a reality. iBOLT is Magic Software's industry-proven business integration solution, specially designed to integrate your business applications **on-time** and **on-budget**.

iBOLT features a code-free and intuitive approach which means it can be used by both business managers and IT specialists alike - helping them work together to quickly achieve integration and benefit from an immediate return on investment.

iBOLT for Lotus Notes and Lotus Domino features a specially optimized adaptor that allows you to synchronize your Lotus Notes and Lotus Domino email and other applications with a host of IT systems including Salesforce.com, SAP Business One, SAP R/3, Oracle JD Edwards, IBM i applications, and many more.

Use iBOLT to synchronize and integrate Lotus Notes and Lotus Domino with:

iBOLT is Magic Software's award-winning business and process integration suite

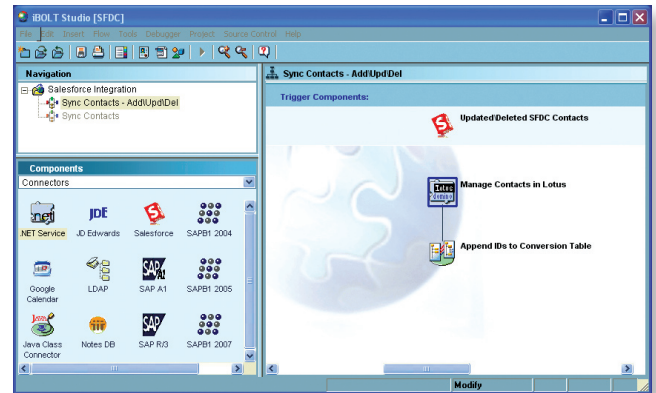

- Quickly and cost-effectively integrates both on-premise and on-demand applications
- Features a large range of certified and optimized connectors and adaptors
- Connects with a wide selection of ERP, CRM, Accounting, Supply Chain, Enterprise Applications, Web and Wireless systems
- Works natively with Salesforce.com, SAP Business One, SAP R/3, Oracle JD Edwards, IBM i applications and databases (AS/400), Lotus Notes applications, forms and databases, Healthcare systems with HL7, EDI systems and many more

“ Thanks to iBOLT's integration, our staff can now stay with the Lotus Notes system they are used to while the company benefits from the additional functionality of SAP at a low cost and without add-on development. There is also no longer any need for staff to repeat the same data input twice. ”

Takenori Aoki, Team Leader, ERP Promotion Team, Business System Division, MintWave

Our Value Advantage

- Award-winning technology with over 25 years of experience
- Global presence with thousands of customers worldwide
- Global network of over 2500 ISVs, hundreds of system integrators, VADs/VARs, consulting and OEM partners
